EXPERIENCE

Dec 2021 - Present

IBM | Associate Design Director, UX Design

Previously: Senior User Experience Designer

Worked with five clients spanning retail, communications, finance, and healthcare on research, strategy, and design to deliver intuitive digital experiences driven by user insights.

- Designed desktop and mobile POS experiences, enabling employees to efficiently manage customer and vehicle services at America's largest independent tire retailer with 1,100+ stores.
- Established a user research program by building prototypes to conduct two phases of usability testing to obtain actionable insights from store employees.
- Led the Work Order Management workstream by mentoring junior designers and partnering with stakeholders across the business to make design decisions.
- Collaborated with designers on building a design system to improve workflow and ensure UX/UI consistency across products and workstreams.

Aug 2020 - Nov 2021

Freelance | Product Designer

Created the MVP for a travel recommendations mobile app that reached 1K+ downloads within one week of launch. Designed a personalization feature for a fragrance e-commerce website.

Nov 2014 - Sep 2019

IPSY | Brand Partner Solutions Coordinator

Previously: Senior Customer Care Agent, Instagram Lead

Planned and executed the brand marketing campaigns for 75+ beauty brands by collaborating with content, e-commerce, and development teams to onboard new brands and edit content on product pages, emails, and collateral.
